

SUMMARY ANALYSIS

Business Performance Dashboard

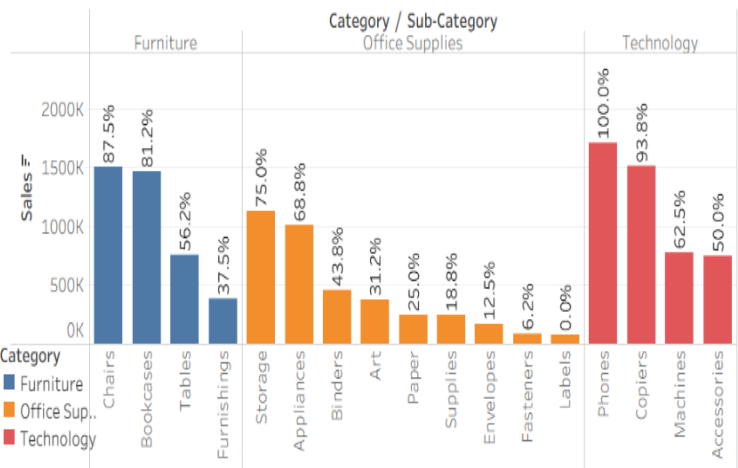

Monthly Sales & Profit

Sales by Region

Category Sales

Sheet 1 Sheet 2 Sheet 3 Dashboard 1

This dashboard provides a comprehensive overview of business performance by combining multiple visualizations, including sales by region, monthly sales and profit trends, and category-wise sales distribution. The map visualization highlights the geographical performance, helping identify high and low-performing regions. The line chart shows the trend of sales and profit over time, making it easy to observe growth patterns, seasonal variations, and any fluctuations. The bar chart provides a detailed comparison of sales across different product categories and sub-categories.

Interactive filters for region, category, and date allow users to explore the data dynamically and focus on specific areas of interest. This dashboard helps businesses quickly identify key trends, evaluate performance, and make data-driven decisions. It is especially useful for understanding which regions and categories contribute most to revenue and where improvements are needed.
